

| TIME/DAY | THE TEAM | | | | |
|--|--|--|---|---|---|
| | KESSLER | FOX | FACTOR | RERUN | FITZ |
| approx 0100, 27 JULY 2015 | Team re-assigned to Operation: Hushabye Blue Newt by Agent Koller. Told to report to Agent Hamelin for briefing at 0800 at Karen's Kitchen in Bolivar Missouri. | | | | |
| 1000ish, 27 JULY 2015 | Team arrives at Karen's Kitchen for briefing. 2 hours late. Have food. Get briefing. Meet Agents Hamelin and Minsky. Rerun's birthday (no, but yay ice cream!). | | | | |
| approx. 1100, 27 JULY 2015 | Team sets up House-Friend in a cornfield on the edge of town and gets some rest. | | | | |
| 1630ish, 27 JULY 2015 | Team is awake. Lots of coffee. Minsky arrives with weapons, equipment, and a new Agency beater car: Isuzu Rodeo. Presumably deactivates existing trackers in Rerun, Kessler, and Factor. | | | | |
| AFTER SOME DISCUSSION AND COFFEE BUT BEFORE 1800, 27 JULY 2015 | Sends Minsky out to purchase hard drives from local Best Buy. Brief heart-to-heart with Rerun. Plans.?? | Uses dark web to look up BETA's infiltration agents. All appear to be civilians, a number of DEA agents. Purchases blackmail material on Helen Davis in Security. | Fabricates false digital documents to indicate the Agency is able to predict the identity of the ToDMother in advance. (Also leaves indications of WHICH expectant ToDMother is THE ONE.) | Brief talk with Kessler. Takes Jesse and 2 Mohawks to case City Hall's alarm locations, send the info to Factor, then goes to investigate previous team's campsite. | Plays guitar. Fixes hair. ?? |
| 2000ish??, 27 JULY 2015 | Puts Factor's False Flag: ToDMother files on hard drives, then uses ability to wipe them, leaving fragments of data behind. (2 drives get toasted, but 1 seems serviceable for job.) | Still dark webbing?/Shooting home action film in front of white wall with new Agency phone. | Gets ride from Hamelin to Bolivar Christian Church & Polk County Christian School across from BETA's home base hotel and uses burner phone to call in public indecency on BETA's floor to cops. | Locates prev. team's campsite, speaks with Brad the Mohawk guarding it. Finds 1 kabuki fox mask artifact and 2 jade ring artifacts. Postcogs area for additional info - young woman not affiliated with Agency or BETA took OTHER Kabuki mask, prev. team went to investigate other campsite, had brainstormed variety of plans to infiltrate hospital. | Looking amazing. ?? |
| 2030ish, 27 JULY 2015 | Goes to compromised AGENCY Mat. nurse's home (Faith Hall?), hands off hard drive and cryptic instructions for BETA's benefit, goes outside to discuss False Flag: The ToDMother plan. Advises nurse to bug out when contacted. Picked up by Minsky. | Still filming and gen. screwing around? | Orders 1 doz. red roses for BETA Agent in Charge, Ellen Rigby to be delivered first thing in the morning. Then orders another dozen roses to be delivered to her one by one throughout the day. | Finds empty campsite belonging to suspicious other group. Agency team obv. underestimated opponents. Blood and drag marks off into woods that lead to small clearing - appears to be site of execution. 4 bodies under loose leaf litter correspond with 4 missing agents. Tag site for later retrieval, lose lunch. | Pompadour care and maintenance. ?? Hopefully other stuff. |
| 2100, 27 JULY 2015 | Making plans for Fox to make contact with AGENCY EVS Ashley and use her badge to move around inside the hospital. Fox is to hack the network and gather patient information and keycodes/whatever else seems useful. Kessler will remain outside as support. Check-in over phone with Rerun and are apprised of new, hostile player on the field. Kessler obtains a valid FBI badge number. Fox breaks Rerun's spare set of glasses. | | Stuck in traffic because a full coach bus rolled 5 times on the main highway. Suspect foul play. Code white called at hospital. Unknown number of casualties. Cause of accident unknown. | | ?? |
| | Hit local Walmart to purchase scrubs for Fox. Scrub colours purchased appropriate for: Nursing, Techs/Clerks, EVS, Food & Nutrition, and Care Management. Head to hospital. Eventually get Fox connected with Ashley and inside of the building. | | Traffic effing <i>sucks</i> . | Traffic still sucks. | ?? |
| | Poses with antelope horn artifact and pretends it's the focus for shorting out security cameras on exterior of hospital. | Accosted by Helen Davis of Security, but successfully bluffs his way into a main maintenance area. Davis continues patrol into parking lot. | Meet up on the road, Factor hops over to the Rodeo and Hamelin heads off. Factor, Rerun, Jesse, and 2 Mohawks drive to False Flag: The ToDMother's house and park outside for 15 minutes. Presumably BETA surveillance crew calls cops who swing by, are super polite, and give accurate directions to Elm St when asked. Rodeo away! | | ?? |
| | Shorts out 6 exterior cameras before approached by Davis. Uses prev. gained dark web intel to attempt to blackmail Davis into wearing a wire to her next meeting with her superiors. Davis demands money, is told she will be contacted and a phone number and listening device will be left in a dead drop and she can try to negotiate for payment with them. | Fox is identified by an unaffiliated EVS staffer as a disliked individual (Joe). Fox scoots into maintenance area proper and is locked in - changes scrubs? Locates staff terminal, sets admin account password to anything, begins downloading maternity records, and staff names and keycodes to a USB drive. Triggers a Code Red (fire) in the OR. BETA (presumably) remotely shuts down terminal before files are fully copied to drive. Reboots terminal, it shuts down. Removes ethernet cable and reboots, checks USB drive for bugs - finds some. Wipes drive. | Purchase 1doz. eggs per person from Walmart and begin to egg the house of each compromised (and aware of such) BETA agent amongst the hospital staff for a total of 4. Initially plan to hit one compromised but NON-aware BETA agent's domicile. (Ultimately run out of eggs before they get that far.) | | ?? |
| PREMIDNIGHT?, 27 JULY 2015 | Texts Fox, asks if he needs backup, is told nope. Confirms the Code Red was Fox before calling Bolivar Dispatch as FBI Special Agent Cooper and requests connection to officer in charge at the scene of the fire. Initially connected to fire chief, eventually connected with Officer Cosart (sp??). | Door kicked open by young (unaffiliated?) security guard. Believes Fox is a friend. Based on Fox's account, calls in Code Grey (combative person) on prior EVS staffer. Fox takes leave of guard on pretense of going to Code Red. | Egging houses - helps Rerun and Mohawks blow off some steam. Rerun crosses "vandalize something" off bucket list. | | ?? |
| 27/28 JULY 2015 | Spins bureaucratic crypticness at Officer Cosart, claims the FBI has been investigating suspicious activity around the hospital. Names BETA maternity nurses Evelyn Line and Karen Gentry as connected and worth bringing in. Officer is suspicious. Kessler reiterates "professional courtesy," despite being unable to disclose specifics of case. Gives FBI badge #. | Fox heads for Admin. Changes to IT(tech?) scrubs. Leaves signs of forced entry on office door. Redownloads maternity records, keycodes and staff names. Attempts to trigger additional Code Red in Behavioral Services above OR, but alarm is shut off immediately. Kessler texts to advise LEAVE NOW. Terminal shuts off. Got maternity records and key codes - no staff records/names. Swaps offices, again leaves signs of forced entry. Interrupted by BETA security Davis. | Joyriding. | | ?? |
| | Still on phone with police, and/or increasingly frustrated over Fox's prolonged foray into MMH. | Fox threatens Davis with blackmail and gun. She correctly identifies him as Agency, he does not realize she gives him an option to leave (he does not know about Kessler's conversation with Davis), and shoots her in the hip when she reaches for his gun. Davis screams and goes down, Fox retrieves USB drive, Davis calls Code Silver in Admin wing and signals Agency presence. Kicks Fox in groin when he tries to grab radio. Fox calls Kessler for evac and exits via back. | In car. Brainstorm what may have happened to Louie and the missing Operators. Are not reassured by their musings. Want to rescue, if possible. Need Louie for infant swap. | | ?? |
| A TIME, 28 JULY 2015 | Kessler picks up Fox in the car and they exit the campus. They pull over into a quiet and dark parking lot by a paint store, where Kessler wipes Fox's sidearm clean of prints and disposes of it. Argument over mission critical info and escalation of situation. Kessler texts Rerun w/ update they are heading back to house-friend. | | Between the 5 of them and 5 doz. eggs, all 4 compromised (and aware of their compromised state) BETA hospital staff's houses get egged. Head back to house-friend, drop Jesse and 2 Mohawks off at their campsite. | | ?? |
| | Rergroup at house! House-friend is VERY excited to greet everyone. Top Gun has a party hat, there is cake, confetti, and a sign that says "Congratulations on your first day of the mission!" Is so sweet. | | | | |
| 0100??, 28 JULY 2015 | Angry about Fox's sociopathic tendencies and apparent disregard for mission integrity. Advocates going on the offensive against BETA. Texts Agency Maternity Nurse to bug out, gets reply, "Gone." | Upset he may have compromised the mission. | Instagramming, Family Feud style. Receiving comments of dismay from Nama over tense situation. | Is glad everyone is okay, but brooding over fate of previous team. Calls Hamelin and is informed group is to meet Agent Tod at Karen's Kitchen at 0500. Advised to get story straight and get some rest. Passes message to group and settles in to prepare a report of the day's events for Agent Tod and brainstorm next steps. Eats cake. | ?? |
